## BAR CUTTING DCM - 50PRO

|                           |                       |
|---------------------------|-----------------------|
| Diameter of TMT Steel Bar | UPTO 40 mm            |
| Round Rebar               | 45 mm                 |
| Machine Body              | Cast Iron             |
| Frequency of Cutting      | 28 time/min           |
| Motor Power               | 4 kw (5hp), 415 V     |
| Rotation Speed of Motor   | 2800 r/min            |
| Motor winding             | Copper winding        |
| Blade                     | 2 side use            |
| Blade Movement            | Clutch Type           |
| Starting Switch           | Siemence Starter 5 Hp |
| Weight                    | 520 Kg                |

Capability Chart for II Grade Rebar Steel Cutting Machine  
Suitable For Tensile Strength  $\leq 450$  N/mm<sup>2</sup>

| Diameter of the Bars | 6mm   | 8mm   | 12mm  | 16mm  | 25mm  | 32mm  |
|----------------------|-------|-------|-------|-------|-------|-------|
| Multiple No. of Bars | 7Nos. | 6Nos. | 4Nos. | 3Nos. | 1Nos. | 1Nos. |
